PROJECTS

Airbnb(Travel,Listing) HTML,CSS ,javascript, Bootstrap, Mongoose, Express.js, MERN stack

It is online marketplace that concepts who wants to rent out their home with people who are looking for accommodations, typically for short days.

Owners can upload multiple images for listings.

Images are stored in Cloudinary with unique id for easy access.

Owners can replace or delete images when modifying properties.

Signup/Login and role-based access (Admin, Owner, Renter)

Renters can leave reviews for properties admin moderation for reviews.

Food Delivery Website HTML ,CSS, Javascript, Bootstap, Frontend Application

Our project is about making a Food Delivery Application. This app helps people order food from their favorite restaurants and get it delivered to their doorstep.

The website is designed to adapt seamlessly to various screen sizes, ensuring accessibility across devices such as smartphones, tablets, and desktops.

Dynamic elements like dropdown menus, modal pop-ups, and loading spinners enhance the user experience.

The website is designed to adapt seamlessly to various screen sizes, ensuring accessibility across devices such as smartphones, tablets, and desktops.
