PROFESSIONAL SUMMARY:

I am a passionate Software Engineer specializing in full-stack development, skilled in building scalable and user-centric web applications. Eager to apply my technical expertise and problem-solving abilities to drive innovation and success.

AREAS OF EXPERTISE:

-  HTML, CSS, JavaScript

 React.js

 Bootstrap and Tailwind CS

 programming language C++

 Python
-  SQL

 Node.js and Express.js

 MongoDB

 JWT and OAuth authentication

 Java

RELEVANT PROJECTS:

Food Delivery Application.

Mar2025–May2025

Developed a full-stack food delivery web application using the MERN stack, enabling users to browse restaurants, view menus, place orders, and track deliveries in real time.Integrated secure user authentication and role-based access control for customers, delivery agents, and administrators.

- User Authentication & Authorization: Implemented secure login and signup using JWT and bcrypt.js, with separate dashboards for users, admins, and delivery partners.
- Real-Time Order Tracking: Integrated socket communication or live status updates for users to track order progress.
- Payment Gateway Integration: Connected Stripe API to handle secure online payments and transaction history.

Course–Selling Application.

Sept2024–DEC2024

Built a scalable, full-stack e-learning/course selling platform using the MERN stack, enabling users to browse, purchase, and enroll in online courses. Integrated secure user authentication, role-based access control, and a payment gateway for course purchases.

- Admin Dashboard: Created an admin panel to manage users, courses, categories, and platform analytics.
- API Development & Testing: Built and tested RESTful APIs with Postman, following best practices in error handling and modularization.

EDUCATION:

MASTER OF APPLICATION

2023–2025

Dr. A.P.J Abdul Kalam University,Lucknow

8.4CGPA

CERTIFICATES:

INFOSYS–SPRINGBOARD

Programming Fundamental using Python

5Apr–2025
